YOUNG & BENSON, BOOKSELLERS AND STATIONERS,

No. 216 RIVER STREET.

Entered according to Act of Congress, in the year 1860, by ADAMS, SAMPSON & Co., in the Clerk's Office of the District Court of the Northern District of New York.

PREFACE.

In consequence of the disturbed condition of the country, we were at first in doubt as to the expediency of issuing this work the present year.

But after consulting many of our prominent citizens who considered the "City Directory" to be absolutely indispensable to all business men, and of very great value to our citizens generally, we entered upon the duties of collecting and compiling the names and other miscellaneous information, as heretofore, early in the month of May.

None but those who have had experience in this business have been employed upon the work, and from the great increase of names found, together with the care and watchfulness bestowed in the compilation, we have no hesitation in saying that we have succeeded in producing a Directory which, upon strict examination, will be found, for accuracy and completeness, superior to any which has yet been presented to the citizens of Troy.

Yet we do not wish to be understood to say we have attained perfection, for we are fully satisfied that it is impossible to collect the names of every citizen and compile the same without some errors or omissions. For this reason we ask the indulgence of those whose names we have failed to find, and promise, if they will give us immediate notice, to insert them correctly another year.

We renew our thanks for the readiness with which the necessary information has been furnished by the public generally, and especially to those who, as advertisers or otherwise, have encouraged the work by substantial aid.

MAYNARD & NOYES'

PERMANENT BLACK

WRITING INK.

TESTED FOR NEARLY HALF A CENTURY,

REGISTRY OF DEEDS OFFICE, Boston, Jan. 10, 1859.

MESSRS. MAYNARD & NOYES: Gentlemen—I am glad that longer use of your Writing Ink enables me to repeat the testimony given in its favor many years ago. I have used it in this office thirty-seven years, *and my oldest records are as legible and black as when first written.* This rare quality for permanence renders it invaluable for State and County Records, and all mercantile purposes, where it is important that the writing should remain legible, and unchanged in color by the lapse of time.

THE PROPRIETORS OF THE

Have just completed their new Catalogue, the most complete and beautifully illustrated work ever published by any manufacturer. As a work of art it deserves a place in every library. It contains nearly 30 pages new engravings, and will be sent to all applicants, on receipt of three cents in stamps to prepay postage.

Local Agencies solicited for the sale of their machines.

A. F. JOHNSON'S

GOLD MEDAL

DOUBLE THREAD SEWING MACHINES,

Are now offered to the public at prices which cannot fail to meet with universal approbation. Every machine is manufactured under the superintendence of the inventor, and warranted. This machine is the most simple and durable two-threaded machine ever offered to the public; it has no springs, cut-offs, clamps, friction wheels, or useless devices of any kind to control the thread, and for speed and stillness it is unrivalled.

Prices varying from $35 to $50, according to finish and cabinet.

Read the report of the Committee on Sewing Machines, at the Mechanic's Fair, Sept. 1860, who awarded A. F. Johnson the highest prize, the GOLD MEDAL, the only Gold Medal given to any Sewing Machine.

A. F. JOHNSON, Boston. Four Sewing Machines. They are deserving of much notice. There are two kinds exhibited by Mr. Johnson, of which he is the sole inventor; and he has a number of patents, covering his improvements. One of these machines is capable of making two kinds of stitches. It will make the single chain stitch, or a double thread stitch, entirely new. (Multum in parvo.) The change from one stitch to another is simple, and the work of but a moment. It is well adapted to all the different kinds of Family Sewing. The other machine makes the Double Lock Stitch in a very superior manner. These machines are all of new patterns throughout. They are each mounted upon an elegant table, wholly original with Mr. Johnson. They are very simple in all their arrangements and perfectly effective, are very cheap, and very ornamental, and they are sold at an extremely low price, placing them within the reach of most any family. Your Committee, taking into view the whole ground, believe that Mr. Johnson has produced a machine perfectly new; and for its beauty and effectiveness as a cheap family machine, they deem it worthy of a GOLD MEDAL.
